Dear Parent(s) / Carer(s)

Health Behaviour in School Aged Children

The John Warner School have been invited to take part in the Health Behaviour in School-aged Children Survey. This is an excellent opportunity for our students to give their opinions on a range of topics relating to health and wellbeing.

Please see attached letter containing information and form to complete in relation to the survey.

Please do not hesitate in contacting me if you have any questions.

Yours faithfully

Mrs J Pope
Acting Assistant Headteacher
